

AMERICA'S DISTINCTIVE TRAINS

The story of the Burlington Zephyrs is one of the most brilliant and fascinating chapters in all American rail history. On May 26, 1934, the first of these renowned stainless steel speedsters astonished the travel world with a 1015-mile non-stop run from Denver to Chicago in 785 minutes—an average of 77.6 miles per hour. On Armistice Day, 1934, it entered service between Kansas City, Omaha and Lincoln establishing the first diesel-powered streamline train service in America.

The Burlington Zephyrs now number more than a dozen and travel considerably in excess of three million miles a year linking many of the important cities of the West with the fastest train service in history.
