

WEST FACADE OF THE FEDERAL GROUP

At the Century of Progress Exposition

The three great pylons typify the three functions of the Federal Government—Judicial, Legislative, and Executive. The pylons are triangular in cross-section. The inner faces will be illuminated as from a hidden fire. The outer faces will be treated in an iridescent blue. At the axis of the building and located within its dome, will be a vertically disposed high-intensity searchlight throwing a powerful blue-white beam into the air. The candlepower of this beam will be approximately 800,000.

Come to the Century of Progress Exposition if you can. Don't let this great and historic occasion come and go without you — you and your family, on hand to see sights never before presented . . . *wonderful* sights that will cause you to rub your eyes in wonderment.

Come and see and enjoy the colossal World's Fair buildings risen on Chicago's beautiful lake front . . . the magic of myriad colorful lights in flaming beams and shafts that pierce the night, that dance upon the water . . . the amazing exhibition of the world's newest and greatest achievements . . . the earth's materials, products, treasures, displayed on a scale that dwarfs anything hitherto attempted.

Your children must not miss the *Education* to be gained from a visit to the Fair. Enjoy the entertainment presented on a lavish scale, the gaiety of the Midway, the fun, the frolic, the fanfare and excitement of the holiday crowds in festive spirit. *Join the World's Children at Play . . . Chicago 1933.*

☛→ The dining car steward will be happy to supply patrons with extra copies of this menu card without cost
