Cigarettes, Including All State Taxes . . . . .	Pkg. 25

\*Under the laws of Colorado it is necessary to pay a tax of 20c. on each individual bottle of distilled liquor sold in the state. To assist in defraying this expense, 10c. will be added to the charge for items marked with an asterisk when served in Colorado in sealed individual containers.

Except for alcoholic beverages and playing cards, sold in the State of Colorado, and cigarettes, prices shown on this list are subject to various occupation expense, school and sales taxes.

"Sale of alcoholic beverages is prohibited on trains in Iowa, Kansas, Oklahoma, and Texas. The steward will gladly inform you as to regulations in other states upon request."

For your protection, liquor and cordials are served in original individual bottles which employees are required to open in your presence. The sale of liquor in individual bottles to be carried away is prohibited by law.

A tax of five cents will be added to the selling price of each package of cards sold in Texas.
