MONUMENT VALLEY—ARIZONA

Arizona is a land of sunshine, unusual scenery and vast Indian reservations.

Across the Navajo Reservation of Northern Arizona stretches Monument Valley with its unusual shaped buttes, cliffs and odd formations.

The painting reproduced on the cover of this menu shows the "Totem Pole." At sunrise and sunset the shadow cast by this towering shaft stretches for many miles across the floor of the valley.

Monument Valley — Arizona, reproduced on this menu, is from a painting by Gerald C. Delano.
